

PROTECT

TEMPLATE CHILD SAFETY RISK REGISTER

INSTRUCTIONS

Child Safe Standard 6 requires schools to develop, implement, monitor and evaluate risk management strategies to ensure child safety in school environments. A risk assessment register will help schools comply with Child Safe Standard 6. This is a **template risk register only**. This means that **all schools must make their own school-specific assessment and fill in the register according to their own specific environment**. **Schools that do not adapt and contextualise their child safety risk register may be found to be non-compliant** with Child Safe Standard 6.

The purpose of a child safety risk register is to **identify, document, and manage or control** child safety risks in the school environment. It is not always possible to eliminate risks to child safety. Rather, the Department expects that schools will **manage and monitor** any risks and **regularly review** their risk assessment. Risk management is **not** intended to interfere with the school's role in providing educational benefits for children and young people. Where possible, risks should be controlled instead of a school ceasing a beneficial activity altogether.

Before completing the child safety risk register, you should:

1. Consult with school staff, students and the school community (including families, volunteers and school council) about any risks they have identified. You may be able to do this through existing channels, including school council, parent club, or Student Representative Council
2. Consider risks in the physical school environment
3. Consider risks in the online school environment
4. Consider risks from, for example: excursions, camps, homestays, student workplace learning, and other activities held off the school site
5. Consider risks that might be specific to vulnerable cohorts, including Aboriginal and Torres Strait Islander children, children from culturally and linguistically diverse backgrounds, children with disability, and international education students.

When completing the child safety risk register, you should:

1. **Remove** any risks that are **not relevant** to your school
2. **Add** further risks that **are relevant** to your school
3. **Add** existing risk management strategies that your school is already undertaking and **remove** any that your school is not already undertaking
4. **Choose** the current risk assessment ratings that apply to the risk in your school
5. Where the current risk rating is **low** and the existing risk management strategies are effective, you do **not** have to undertake new risk management strategies
6. Where the current risk rating is **medium or above**, **add** new risk management strategies that your school will undertake
7. **Add** the position title of the person in your school who will be responsible for the risk management strategy
8. **Add** a date (and diarise) the next review of the risk register (it is recommended that Extreme and High risk are monitored, reviewed and reported on annually)
9. **The principal** should **sign** the risk register.

You can contact the DET Risk team at risk.in.education@edumail.vic.gov.au for help to complete this risk register.

All information highlighted in green is for instructional purposes only, and should be removed from the final document.

Important - All information in this register is *example only* and must be tailored to suit the school event

Responsible staff member: (name of person completing the form)

Approved by school principal:

Register name: Child safety risk register (Child Safe Standard 6)

Date reviewed 17th October 2019

Risk Title & Description	Risk Causes & Consequences	Existing risk management strategies (existing controls)	Current Risk Assessment			New risk management strategies (treatments)	Who is responsible?	Date of new risk management strategies (treatments)
			Current Risk Consequence <i>How big would the impact of this risk be if it occurred? (choose one)</i>	Current Risk Likelihood <i>How likely is this risk to occur? (choose one)</i>	Current Risk Rating <i>What is the current risk level based on the risk rating matrix (below, page 9)?</i>			
<p>Define the risk including a title and a short description <i>What can go wrong?</i></p>	<p>Describe the risk cause/s and consequence/s <i>What would cause it to go wrong? (causes)</i> <i>What are the impacts if it does go wrong? (consequences)</i></p>	<p>Describe any existing policy, procedure, practice or device that acts to minimise the risk <i>What is in place now that reduces the likelihood of this risk occurring or its impact if it did occur?</i></p>	<p>Current Risk Consequence <i>How big would the impact of this risk be if it occurred? (choose one)</i></p>	<p>Current Risk Likelihood <i>How likely is this risk to occur? (choose one)</i></p>	<p>Current Risk Rating <i>What is the current risk level based on the risk rating matrix (below, page 9)?</i></p>	<p>Describe the actions to be undertaken for those risks requiring further treatments</p>	<p>List who is responsible for each new treatment (noting that the principal is ultimately responsible)</p>	<p>The date the treatment action should be completed by April 2020</p>
<p>Risk Title Child abuse is not reported</p> <p>Risk short description There is a risk that the school does not report child safety concerns</p>	<p>Causes</p> <ul style="list-style-type: none"> Lack of reporting protocols Staff not aware of reporting protocols Staff not aware of their reporting obligations Familiarity of relationships Poor child safety culture <p>Consequences</p> <ul style="list-style-type: none"> Child safety incident occurs Underreporting of child safety incidents to relevant authorities Inappropriate behaviour not reported within school Physical or psychological injury Stress for all personnel involved, which could lead to occupational health and safety issues Criminal penalties: <ul style="list-style-type: none"> Failure to Report and/or Failure to Protect offence, Penalties under the Reportable Conduct Scheme Non-compliance with minimum standards/Min Order 870 Breach of duty of care/organisational duty of care Litigation / adverse court ruling Reputation damage (School/Department) Community dissatisfaction and distrust over perceived child safety neglect, which could lead to drop in school enrolments 	<ol style="list-style-type: none"> Child safety policy and statement of commitment. DET Risk Process

Risk can be described as anything; event, practice, process, activity, etc. that could hinder or help achievement of stated goals or objectives.

DET Risk Management Framework - Assessment Tools

Consequence Criteria: This guide provides indicative terms against which the significance of risk is evaluated.

Descriptor	Student Outcomes	Wellbeing and Safety	Finance	Reputation	Operations	Strategic
Insignificant	<ul style="list-style-type: none"> Educational outcomes, engagement and wellbeing and pathways and transitions can be met with workarounds 	<ul style="list-style-type: none"> Minor injury requiring no first aid or peer support for stress / trauma event 	<ul style="list-style-type: none"> Small loss that can be absorbed 	<ul style="list-style-type: none"> Internal impact (no external impact) 	<ul style="list-style-type: none"> School operations continue with slight interruptions to normal activities 	<ul style="list-style-type: none"> Goals, targets and key improvement strategies can be delivered with inconsequential impacts
Minor	<ul style="list-style-type: none"> Educational outcomes, engagement and wellbeing and pathways and transitions achieved but below targets 	<ul style="list-style-type: none"> Injury / ill health requiring first aid Peer support for stress / trauma event 	<ul style="list-style-type: none"> Loss of 'consumable' assets, < 2% deviation from budget Minor fraud possible 	<ul style="list-style-type: none"> Adverse comments local community media Short term stakeholder dissatisfaction / comment 	<ul style="list-style-type: none"> Some school operations disrupted Minor workarounds return school to normal operations 	<ul style="list-style-type: none"> Minor workaround need to be implemented to deliver the SSP goals, targets and key improvement strategies
Moderate	<ul style="list-style-type: none"> Students' overall levels of Literacy and Numeracy static Increasing truancy Partial achievement of targeted pathways and transition 	<ul style="list-style-type: none"> Injury / ill health requiring medical attention Stress / trauma event requiring professional support 	<ul style="list-style-type: none"> Loss of assets 2% - 5% deviation from budget External audit management letter 	<ul style="list-style-type: none"> External scrutiny e.g. VAGO Adverse state media comment Stakeholder relationship impacted 	<ul style="list-style-type: none"> Key school operations temporarily disrupted School leadership team meets to return school to normal operations 	<ul style="list-style-type: none"> Constant consultation with key stakeholders needs to be maintained to deliver the SSP goals, targets and key improvement strategies
Major	<ul style="list-style-type: none"> National targeted improvements not achieved Partial achievement of targeted learning outcomes Student dissatisfaction with access to pathways / transitions 	<ul style="list-style-type: none"> Injury / ill health requiring hospital admission Stress / trauma event requiring ongoing clinical support 	<ul style="list-style-type: none"> Loss of significant assets 6% - 15% deviation from budget External audit qualification on accounts High end fraud committed 	<ul style="list-style-type: none"> External investigation Adverse comments national media Stakeholder relationship tenuous 	<ul style="list-style-type: none"> Whole of school operations disrupted Assistance sought from Regional Office 	<ul style="list-style-type: none"> Significant adjustment to resource allocation and service delivery required to deliver SSP goals, targets and key improvement strategies
Severe	<ul style="list-style-type: none"> Literacy and Numeracy decline Student engagement and connectedness to the school and their peers is very poor Declining number of student options for pathways and transitions 	<ul style="list-style-type: none"> Fatality or permanent disability Stress / trauma event requiring extensive clinical support for multiple individuals 	<ul style="list-style-type: none"> Loss of key assets >15 % deviation from budget Systemic and high value fraud 	<ul style="list-style-type: none"> Commission of inquiry National front page headlines Stakeholder relationship irretrievably damaged 	<ul style="list-style-type: none"> Normal school operations cease School evacuated Regional Office notified 	<ul style="list-style-type: none"> SSP goals, targets and key improvement strategies cannot be delivered Changes need to be made to the SSP

Likelihood Criteria: This guide provides the indicative terms against which the probability of a risk event occurrence is evaluated.

Descriptor	Description	Indicative %	Indicative Frequency
Almost Certain	Expected to occur	>95%	Multiple times in the next year
Likely	Probably will occur (no surprise)	66-95%	At least once in the next year
Possible	May occur at some stage	26-65%	Once in the next 3 years
Unlikely	Would be surprising if it occurred	5-25%	Once in the next 5 years
Rare	May never occur	<5%	Once in the next 10 years

Note:

- The **Likelihood Criteria** refers to the likelihood of the consequence descriptor you have selected i.e. the likelihood of a 'major' consequence.
- The **Indicative Frequency** may not be relevant when assessing risks related to repeated activities, or when objectives are to be delivered over discrete periods of time. It should not be the sole basis for assessment.

DET's Control Effectiveness: Indicates the self-assessment of control effectiveness.

Controls Effectiveness Rating and Criteria	
Ineffective	<ul style="list-style-type: none"> The design of controls overall, is ineffective in addressing key causes and/or consequences. Documentation and/or communication of the controls does not exist (e.g. policies, procedures, etc.). The controls are not in operation or have not yet been implemented.
Needs Improvement	<ul style="list-style-type: none"> The design of controls only partially addresses key causes and/or consequences. Documentation and/or communication of the controls (e.g. policies, procedures, etc.) are incomplete, unclear or inconsistent. The controls are not operating consistently and/or effectively and have not been implemented in full.
Acceptable	<ul style="list-style-type: none"> The design of controls is largely adequate and effective in addressing key causes and/or consequences. The controls (e.g. policies, procedures, etc.) have been formally documented but not proactively communicated to relevant stakeholders. The controls are largely operating in a satisfactory manner and are providing some level of assurance.
Effective	<ul style="list-style-type: none"> The design of controls is adequate and effective in addressing the key causes and/or consequences. The controls (e.g. policies, procedures, etc.) have been formally documented and proactively communicated to relevant stakeholders. The controls overall, are operating effectively so as to manage the risk.

DET's Risk Rating Matrix: Used to combine consequence with likelihood to determine the overall level of risk.

Risk Rating Matrix		Consequence				
		Insignificant	Minor	Moderate	Major	Severe
Likelihood	Almost Certain	Medium	High	Extreme	Extreme	Extreme
	Likely	Medium	Medium	High	Extreme	Extreme
	Possible	Low	Medium	Medium	High	Extreme
	Unlikely	Low	Low	Medium	Medium	High
	Rare	Low	Low	Low	Medium	Medium

DET's Acceptability Chart: Used to decide whether the risk is acceptable, based on the rating calculated.

Extreme = Unacceptable (must have Principal / School Council / Regional Office oversight)	Immediately consider whether the activity associated with this risk should cease. Any decision to continue exposure to this level of risk should be made at Principal / School Council / Regional Office level, be subject to the development of detailed treatments, on-going oversight and high level review.
High = Tolerable (with ongoing Principal Class Officer review)	Risk should be reduced by developing treatments. It should be subject to on-going review to ensure controls remain effective, and the benefits balance against the risk. Escalation of this level of risk to Principal Class Officer level should occur.
Medium = Tolerable (with frequent risk owner review)	Exposure to the risk may continue, provided it has been appropriately assessed and has been managed to as low as reasonably practicable. It should be subject to frequent review to ensure the risk analysis remains valid and the controls effective. Treatments to reduce the risk can be considered.

**Low = Acceptable
(with periodic review)**

Exposure to this risk is acceptable, but is subject to periodic review to ensure it does not increase and current control effectiveness does not vary.
