# Important Information

## Attendance

Regular and punctual attendance is extremely important for your child's learning! All absences must be covered by a note or a phone call from home or entered into Compass. Please inform the office of any extended holidays outside of the regular school holiday periods. Please be aware the school day begins at 8:50 with either Fitness or Mindfulness to help students settle into the day's learning.

## Interschool Sport

We are looking forward to some friendly competition this term with COHR and Sacred Heart Schools. Students will be playing either AFL 9's, Soccer, Netball, Volley Stars or Tennis with Marco as part of the Barty Party! Training and matches will take place on Friday mornings. We look forward to the Gala Day later this term.

## Science

This term we will be exploring Earth and Space science. Students will research and investigate the suns, stars and the planets in the solar system. They will use research skills such as posing questions, checking hypothesis and conducting experiments to further understand our solar system.

## Tissues

Thank you to the families who have contributed a box of tissues to our class supply. If you have not contributed a box, your help in adding to our supply would be appreciated.

## Mobile Phones

Please remember that mobile phones are not allowed at school. If your child requires a phone, it needs to be handed into the office in the morning and can be collected at home time.
